EXAMINER'S AMENDMENT

An extension of time under 37 CFR 1.136(a) is required in order to make an examiner's amendment which places this application in condition for allowance. During a telephone conversation conducted on June 15, 2010, Ms. Textoris requested an extension of time for one MONTH(S) and authorized the Director to charge Deposit Account No. 24-0037 the required fee of \$120 for this extension and authorized the following examiner's amendment. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the claims:

Please amend claims 61 and 63 as follows:

61. (Currently Amended) A method of making a container, the method comprising:

(a) selecting a preform for a container wherein said preform has improved reheat characteristics and comprises a composition which comprises a polymeric material and titanium nitride, wherein said polymeric material contains ~~includes~~ titanium nitride in the amount of 25ppm or less of titanium nitride based on the weight of said polymeric material; and

(b) heating the selected preform and forming it into a container.

Art Unit: 1796

63. (Currently Amended) A container or a preform for a container, wherein said container or preform comprises a composition which comprises a polymeric material and titanium nitride, wherein said polymeric material contains ~~includes~~ titanium nitride in the amount of 25ppm or less of titanium nitride based on the weight of said polymeric material.

The following is an examiner's statement of reasons for allowance: The instant invention is drawn to a container or a preform for a container (and a method of making a container), wherein said container or preform comprises a composition which comprises a polymeric material and titanium nitride, wherein said polymeric material contains titanium nitride in the amount of 25ppm or less based on the weight of said polymeric material.

While the prior art of record discloses polyester based compositions suitable for performs or container that contain small amounts of TiN, none of the prior art discloses compositions that contain amounts that are 25 ppm or less of TiN in the polyester composition, with closest prior art disclosing at least 100 ppm of TiN necessary to achieve results desired in the prior art references.

.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 1796
